valuation, plus (ii) the estimated tax rate for voted debt obligations of the District, including the bonds, which is estimated to be \$0.3249 per \$100 of taxable assessed valuation. This estimated total tax rate is derived from projections obtained from the District, the District's financial advisor and the appraisal district and is provided without any assurance that such projections will be realized. At the time the bonds are issued, the actual total tax rate will depend upon, among other factors, prevailing interest rates, the assessed value of real property in the District, the availability of the Permanent School Fund Guarantee Program, and general market conditions.

The statements contained in these findings: (i) are based on information available to the District on the date of adoption of this Order, including projections obtained from the District and the District's financial advisor; (ii) necessarily consist of estimates and projections that are subject to change based on facts, circumstances, and conditions existing at the time the bonds approved pursuant to this Order are issued; and (iii) are not intended to limit the authority of the Board to issue bonds in accordance with other terms contained in this Order. Accordingly, actual tax rates, interest rates, maturity dates, aggregate outstanding indebtedness, and interest on such debt will vary and will be established after the bonds are issued. To the extent of any conflict between this subsection and other provisions of this Order, such other provisions control.

Govt. Code, as amended, and for no other purpose, without any assurance that such projections will be realized; and (iv) not intended to and do not create or infer a contract with the voters of the District or limit the authority of the District in any way to issue the bonds in accordance with the Proposition set forth in the Order.
