Is any portion of the property in the Floodplain? ☐ Yes ☐ No ☐ Unsure

Information for the owner of an On-Site Sewage Facility (OSSF or septic system)

- All septic systems require a permit, regardless of acreage.
- The amount of maintenance required and the long-term cost can vary a lot depending on the type of system.
- Decisions regarding system type must take the owner's wishes into consideration.
- Washington County does NOT require any certain type of septic system; you have options, and may choose to install any type of system that meets code.
- We are here to assist you in making an informed decision when choosing the type of system to install.
- If you have any questions or concerns, contact our office at 979-277-6290.

I acknowledge receipt of the information for the owner of an On-Site Sewage Facility and I certify that the information given by me with this application is true and accurate to the best of my knowledge. I authorize Washington County Environmental Health employees, their agents and designees, to enter upon the subject property for purposes associated with this application, which may include site evaluation, inspection, traditional photos, and photos taken by drone.
