#3

Discussion and possible action on the approval of purchasing Tyler Technology AP Automation with Disbursements and allow the Judge to sign any necessary documents. (Shawna Hollis, County Auditor)

CURRENT MANUAL AP PROCESSING COSTS

Based on a five-year average of approximately 5,200 checks processed annually, Washington County currently incurs significant operational costs associated with manual accounts payable processing.

Estimated Annual Costs:

- Postage: 5,200 checks × \$0.69 = \$3,588
- Paper & Ink Copies: 5,200 checks × 6 pages × \$0.05 = \$1,560
- Clerk Labor: 24 hours/week × 52 weeks × \$26.19/hour = \$32,685.12

Total Estimated Annual Processing Cost: \$37,833.12

Average Cost Per Check: \$7.28

The Tyler AP Automation solution is designed to substantially reduce these manual processing costs by:

- Reducing paper-based approvals and routing
- Increasing electronic payments and digital workflows
- Reducing staff time spent processing invoices and checks
- Eliminating unnecessary printing and mailing
- Allowing electronic approvals by elected officials and department heads
- Improving efficiency and internal controls

The annual AP Automation software cost is \$17,718, plus a one-time project management fee of \$250.

The anticipated operational savings and efficiency gains are expected to outweigh the annual software investment while also improving accountability, transparency, and payment security.

Comments

Work will be delivered remotely unless otherwise noted in this agreement.

Expenses associated with onsite services are invoiced as incurred according to Tyler's standard business travel policy.

SaaS is considered a term of one year unless otherwise indicated.

AP Automation Capture with Disbursements

A fully automated vendor payment system, including an automated invoice capture system, invoice approval system, AP Invoice Access. Tyler Software may include artificial intelligence ("AI") features that are provided as an administrative convenience, designed to analyze data or make suggestions, subject to changing laws applicable in your local jurisdiction. Client is responsible for independently validating the accuracy of data analyzed or suggestions provided via AI features and using such features only to the extent permissible under applicable law.

Fraud, Risk & Compliance – Finance

Included with AP Automation Capture with Disbursements

AP Automation Disbursements

Expedited disbursement options available to vendors include instant transfer to a bank account, PayPal, Venmo and fast ACH where fees may apply. No fee options include standard ACH, and physical checks. All disbursements will be made pursuant to the terms and conditions found at <https://www.tylertech.com/client-terms/ap-automation-disbursements-software-and-services-terms-of-use>

NOTWITHSTANDING ANYTHING TO THE CONTRARY, WITH RESPECT TO ALL CYBERSECURITY OFFERINGS, INCLUDING FRAUD, RISK & COMPLIANCE, (A) TYLER DISCLAIMS ALL REPRESENTATIONS AND WARRANTIES, INCLUDING, WITHOUT LIMITATION, ANY WARRANTY AS TO OUTCOMES OR ERRORS AND ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, (B) IN NO EVENT WILL TYLER BE LIABLE FOR THE ACTIONS OF ANY MALICIOUS OR CRIMINAL ACTORS, AND (C) TYLER DOES NOT WARRANT THAT SUCH OFFERINGS WILL PREVENT A BREACH OF SYSTEM SECURITY FROM OCCURRING.

Client agrees that items in this sales quotation are, upon Client's signature or approval of same, hereby added to the existing agreement ("Agreement") between the parties and subject to its terms. Additionally, payment for said items, as applicable but subject to any listed assumptions herein, shall conform to the following terms, subject to payment terms in an agreement, amendment, or similar document in which this sales quotation is included:

- License fees for Tyler and third-party software are invoiced upon the earlier of (i) delivery of the license key or (ii) when Tyler makes such software available accessible.
- Fees for hardware are invoiced upon delivery.
- Fees for year one of hardware maintenance are invoiced upon delivery of the hardware.

- Annual Maintenance and Support fees are first payable when Tyler makes the software accessible to the Client, and SaaS fees, Hosting fees, and Subscription fees are first payable on the first day of the month following the date this quotation was signed (or if later, the commencement of the agreement's initial term). Any such fees are prorated to align with the applicable term under the agreement, with renewals invoiced annually thereafter in accord with the agreement.

Fees for services included in this sales quotation shall be invoiced as indicated below.

- Implementation and other professional services fees shall be invoiced as delivered.
- Client has six months to use the services. If Client does not use the services within six months, Tyler may remove the unused services or issue a new quote to provide services at then-current rates.
- Fixed-fee Business Process Consulting services shall be invoiced 50% upon delivery of the Best Practice Recommendations, by module, and 50% upon delivery of custom desktop procedures, by module.
- Fixed-fee conversions are invoiced 50% upon initial delivery of the converted data, by conversion option, and 50% upon Client acceptance to load the converted data into Live/Production environment, by conversion option. Where conversions are quoted as estimated, Tyler will invoice Client the actual services delivered on a time and materials basis.
- Except as otherwise provided, other fixed price services are invoiced upon complete delivery of the service. For the avoidance of doubt, where "Project Planning Services" are provided, payment shall be invoiced upon delivery of the Implementation Planning document. Dedicated Project Management services, if any, will be invoiced monthly in arrears, beginning on the first day of the month immediately following initiation of project planning.
- If Client has purchased any change management services, those services will be invoiced in accordance with the Agreement.
- Notwithstanding anything to the contrary stated above, the following payment terms shall apply to fees specifically for migrations: Tyler will invoice Client 50% of any Migration Services Fees listed above upon Client approval of the product suite migration schedule. The remaining 50%, by line item, will be billed upon the go-live of the applicable product suite. Tyler will invoice Client for any Project Management Fees listed above upon the go-live of the first product suite. Annual SaaS Fees will be invoiced upon availability of the hosted environment.

Any SaaS or hosted solutions added to an agreement containing Client-hosted Tyler solutions are subject to Tyler's SaaS Services terms found here: <https://www.tylertech.com/terms/tyler-saas-services>.

Unless otherwise indicated in the contract or amendment thereto, pricing for optional items will be held for six (6) months from the Quote date or the Effective Date of the Contract, whichever is later.

A Solution for Secure and Efficient Vendor Payments

AP Automation enables organizations to quickly and accurately automate vendor payments, creating mutual value for your organization and your vendors.

Designed to mirror the check workflow process in a fraction of the time, AP Automation can produce substantial savings for your organization. Paying suppliers becomes easy, efficient, secure, and painless, while reconciliation is simplified and manual errors are virtually eliminated.

This application streamlines invoice management by automating both the payment and acceptance of vendor invoices through Disbursements and Invoice Capture. Using artificial intelligence (AI) and machine learning, Invoice Capture intelligently extracts invoice details and matches them to the appropriate accounts based on your ERP system's data and requires no manual data entry.

Benefits For Your Organization And Your Vendors

- **Reduces your organization's number of paper checks**, which can cost between \$4 and \$20 each.
- Streamlines your organization's accounts payable **at no cost**.
- **Enables payment processes in real time**, allowing vendors to quickly receive payment.
- **Reduces fraud and misuse** by eliminating the need to store vendors' bank data.
- Allows your organization to **instantaneously view status and reconcile payments**.
- Eliminates the need to collect and manage vendor bank accounts for EFT payments. Instead, organizations can **rely on Tyler to track what is needed for vendors to get paid**.
- Invoice Capture **reduces manual work** by using AI to extract invoice data and **ensure accurate account matching**.
- **Integrates with Tyler's ERP solutions**. AP Automation is **built into** the existing vendor payment processes.

TOTAL:	
--------	--

April was a fairly busy month,

The patrol car was finally outfitted and I travelled the county patrolling in my personal vehicle the end of March as well as the beginning of April.

K9 GEO was picked up in Albuquerque and has improved immensely since she began her service. I certified her on the way home so once she's finished out some more she will be ready to hit the road

March was fairly slow since I did not have a marked unit. But Deposits were run and courts were baliffed.

h. Elections

Washington County Elections and Voter Registration Department

Elections Administrator Carol Jackson

Registered Voter Summary and Updates for Commissioners Court

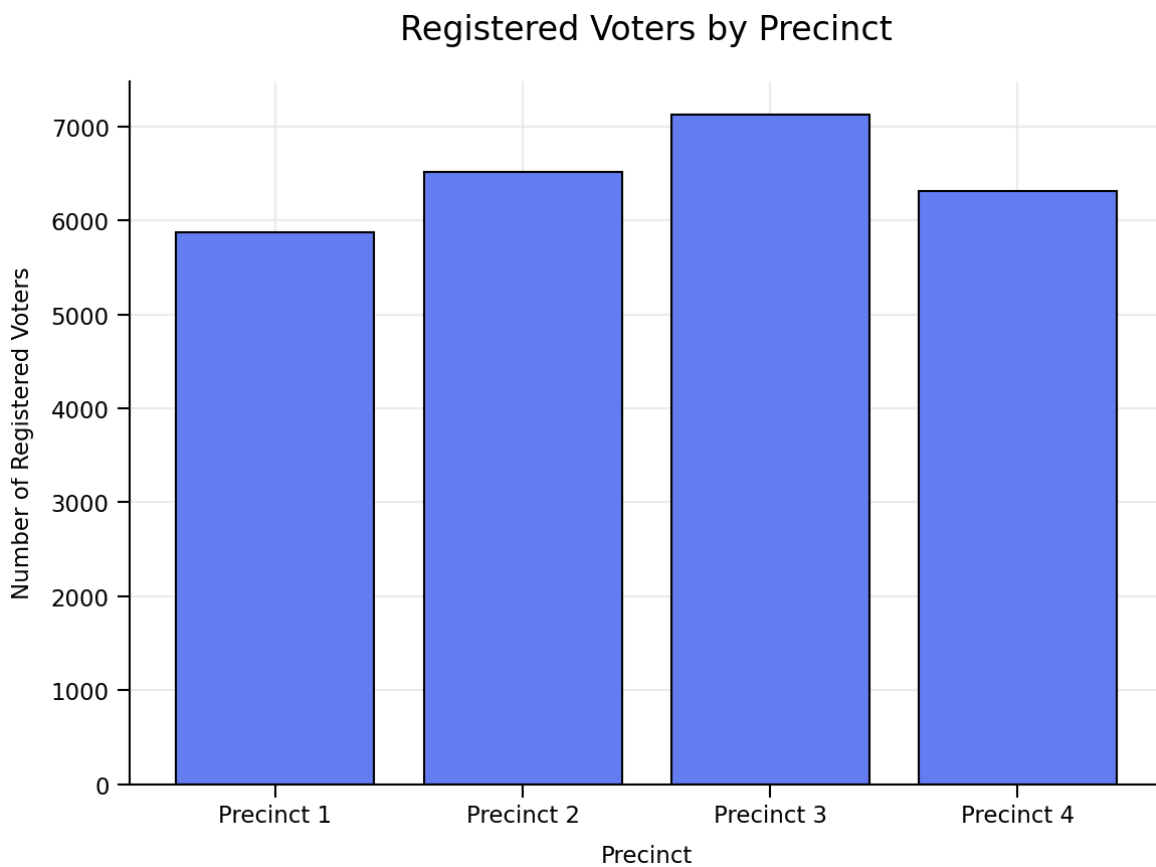

Precinct Summary Table

Precinct	Included	Registered Voters	Percent of Total
Precinct 1	101, 104, 109, 115, 117, 121	5875	22.74%
Precinct 2	202, 203, 205, 208	6520	25.24%
Precinct 3	307, 311, 312, 320	7126	27.58%
Precinct 4	406, 410, 413, 418, 419	6313	24.44%

Bar Chart

Percentage difference per Commissioner Precincts

Key Findings

- Precinct 3 is the largest precinct with over 27% of voters.
- All precincts have relatively balanced voter counts.
- No precinct exceeds 30% of total registered voters.

**Washington County Elections Office
Operations Report to Commissioners Court
Voter Registration and Elections Administration
Reporting Period: Current Election Cycle**

1. Voter Registration – Temporary Part-Time Support (Ms. Janet)

A request was submitted to extend Ms. Janet’s temporary assignment through the end of May to ensure continuity of operations during an elevated workload period. Her duties include:

- Processing daily mail, voter record updates, cancellations, and DPS/online voter registration applications
- Scanning documents and assisting with the cleanup of older records in the VISTA system
- Providing voter assistance at the public counter and by phone
- Supporting TEAM data entry and preparation/mailing of voter certificate letters

To date, approximately **1,000 voter certificates** have been processed with her support.

2. Elections Administration – Elections Clerk (Ms. Jennifer)

Ms. Jennifer continues to manage the processing of Ballot by Mail (ABBM) applications. Her responsibilities include:

- Reviewing and processing ABBMs
- Preparing, assembling, and completing all required steps for ballot-by-mail packet delivery
- Assisting with voter registration duties when the election workload allows

More than **400 ABBMs** have been processed this cycle, resulting in **over 300 ballots mailed** to voters. This total includes items requiring corrective action, rejections, and follow-up due to voter-submitted errors.

3. Workload Snapshot

- More than **1,000 voter certificates** returned requiring address updates or corrections
- Nearly **300 ballots mailed** for the current election cycle
- Increased voter registration application volume from DPS and online sources
- Ongoing need for strict data accuracy in both TEAM and VISTA systems
- High public contact levels via phone and in-person assistance

4. Post-Election Reporting Requirements

Following each election, the Elections Office is responsible for completing several state-mandated reports to ensure accuracy, transparency, and proper reconciliation.

Required post-election reports include:

- Preliminary Reconciliation Report
- Final Reconciliation Report

- Summary and Certification of the Post-Election Hand Count Audit
- Reconciliation of Total Votes Cast at Each Polling Location

These reports require detailed review and verification of precinct-level voting activity, ballot accounting, and audit documentation, significantly increasing workload following each election.

5. Post-Election Hand Count Audit Requirements

To ensure the integrity and accuracy of election results, the Post-Election Hand Count Audit is mandated under **Texas Election Code Section 127.201**. The audit must begin within **72 hours of the polls closing on Election Day and** be completed no later than the **21st day after Election Day**.

The audit requires the hand counting of:

- Early Voting in-person ballots
- Early Voting by mail ballots
- Election Day ballots counted using a precinct scanner
- Election Day ballots counted using a central scanner

These ballots are manually counted and compared with electronic tabulation results to confirm accuracy, a process that requires substantial time and oversight.

6. Audit Team Requirements and Reporting

Completion of the Post-Election Hand Count Audit requires the appointment of multiple audit teams by the Early Voting Ballot Board. Each audit team consists of:

- Two talliers
- One counter

These teams work together to ensure accurate hand counting and proper documentation. Following completion of the audit, all related reports—including reconciliation documents and the Certification of the Post-Election Hand Count Audit—must be finalized and submitted to the State. Additionally, these reports must be posted on the County Elections website to provide transparency and maintain public accessibility.

Summary

The Elections Office continues to manage heightened activity in both Voter Registration and Elections Administration. The complex workload associated with ballot-by-mail processing, voter certificate handling, required post-election reporting, and the statutory hand-count audit underscores the ongoing need for sufficient staffing, including the continuation of temporary support. We respectfully submit this report for the Court's review and consideration.

• **Additional Post-Election Reporting and Submission Requirements**

As part of the required canvassing and compliance process, the Elections Office must also complete and submit the **Final Results Report for Canvassing**. This includes verification of total votes cast, reconciliation of precinct-level results, and confirmation of final tabulation accuracy.

In addition, the following items must be submitted as required by state law and administrative rules:

- **Any Reasonable Impediment Declaration forms** completed by voters during the election
- **A list of election workers who assisted more than seven curbside voters**, as required for transparency and monitoring of curbside voting activity

These additional submissions further ensure accountability, documentation integrity, and compliance with state-mandated election procedures.

Additional Post-Election Ballot Review Requirements

Following Election Day, the Elections Office is also required to meet with the **Early Voting Ballot Board (EVBB)** to complete all post-election ballot reviews. These responsibilities include:

- Reviewing and counting all **eligible provisional ballots** submitted by voters
- Reviewing **Vote-by-Mail ballots** that arrive after Election Day due to required corrective action
- Reviewing Vote-by-Mail carrier envelopes received on the day after the election that are **postmarked on or before Election Day**, as permitted by law

These processes require careful examination to ensure each ballot meets statutory eligibility criteria and is counted appropriately. All actions must be documented and completed in coordination with the EVBB to comply with state election procedures.

Provisional Ballot Process

When a voter's eligibility cannot be immediately determined at the polling place, the voter is offered the opportunity to cast a **provisional ballot**, as required by the Texas Election Code. The provisional ballot process includes several required steps:

1. Issuing the Provisional Ballot

- The voter completes a **Provisional Ballot Affidavit** and signs the provisional ballot envelope.
- The voter's ballot is placed inside the envelope and sealed.
- The envelope is delivered to the Elections Office for post-election review.

2. Verification of Eligibility

After Election Day, the **Early Voting Ballot Board (EVBB)** meets to review each provisional ballot.

The EVBB must determine whether the voter's ballot can be counted based on:

- Registration status
- Identification requirements
- Whether the voter voted in the correct precinct
- Whether the voter completed any required follow-up steps (such as providing ID documentation within the six-day cure period)

3. Determination by the EVBB

- If the voter **meets eligibility requirements**, the provisional ballot is accepted and counted.
- If the voter **does not meet eligibility requirements**, the ballot is rejected.

All determinations are documented in the official provisional ballot log.

4. Recording and Reporting

- The number of accepted and rejected provisional ballots is recorded.
- Accepted provisional ballots are added to the final canvass totals.
- Voters are notified by mail whether their provisional ballot was counted.
- All required information is included in post-election reports submitted to the State.

5. Integration Into the Canvass

Accepted provisional ballots become part of the official election results and are included in the Final Results Report submitted for canvassing.
